LED REPLACEMENT POOL LIGHT

# UPGRADE YOUR LIGHTS **TODAY!**

Transform your pool into a night-time paradise, experience brilliant colours, captivating light shows and a brighter output than ever before!

With the all new ATOM Retro series all this is possible and with its innovative design; replacing your existing pool light is not only safe, but its simple and easy enough to do it yourself!

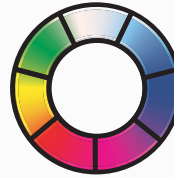

Using our patented detachable cable system and innovative adapter plate design, the ATOM Retro replaces existing pool lights in minutes without the need to replace cables, transformers or even lower the water level! Anyone can replace their pool light and the results will amaze you!

For more information speak to your pool professional or visit [www.spaelectrics.com](http://www.spaelectrics.com)

## DETACHABLE PLUG

Detachable plug system for simple installation & winterization.

## MULTIPLUS LED

With the MULTI PLUS anything is possible. Change colours via a wall switch or integrate with major pool controllers. All while experiencing stunning colours, true 4000k white and synchronised light shows.

## INTELLIGENT DESIGN

The innovative adaptor plate makes replacing your old light easy! Simply twist-lock the adaptor plate onto the existing rim for an instant transformation!

Existing AQUA/LAMP® rim
